

ShinewayTech®

Helix Analytix adds Shineway Tech to its Product Portfolio

Shineway Tech, along with Mohawk Ltd., its North American distributor, offers a complete line of fiber optic test equipment. Shineway Tech offers advanced products and total solutions in optical network testing and maintenance including OTDRs, optical channel analyzers, power meters, light sources and fusion splicers. These products are designed to meet the demands of all stages of network installation, maintenance and troubleshooting. Shineway Tech handheld testers provide greater value helping customers reduce operational costs.

Mohawk Ltd. provides the distribution, service and support for Shineway Tech throughout North America. This partnership provides Shineway Tech with local service and support through a longstanding organization in Mohawk Ltd.

Mohawk Ltd. has provided the highest quality equipment repair, calibration and product supply since 1959.
